[Primary Antibody]

Rabbit Anti-Nucleobindin 2 antibody

Catalog Number: SL23044R

FOR RESEARCH USE ONLY

[DATASHEET]

Host:	Rabbit
Isotype:	IgG
Clonality:	Polyclonal
Target:	Nucleobindin 2
Immunogen:	KLH conjugated synthetic peptide derived from human Nucleobindin 2: 251-350/420
Purification:	affinity purified by Protein A
Concentration:	1mg/ml
Storage:	0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. Shipped at 4℃. Store at -20 °C for one year. Avoid repeated freeze/thaw cycles.
Applications:	IHC-P=1:100-500 IHC-F=1:100-500 IF=1:100-500 ELISA=1:5000-10000 not yet tested in other applications. optimal dilutions/concentrations should be determined by the end user.
Reactivity:	(predicted:Human,Mouse,Rat,Chicken,Dog,Cow,Horse,Rabbit,Sheep)
Predicted MW.:	50kDa
Subcellular Location:	The nucleus cytoplasmic The cell membrane Secretory protein
Background:	This gene encodes a protein with a suggested role in calcium level maintenance, eating regulation in the hypothalamus, and release of tumor necrosis factor from vascular endothelial cells. This protein binds calcium and has EF-folding domains. [provided by RefSeq, Oct 2011]. **Function:** Calcium-binding protein. May have a role in calcium homeostasis. Nesfatin-1: Anorexigenic peptide, seems to play an important role in hypothalamic pathways regulating food intake and energy homeostasis, acting in a leptin-independent manner. May also exert hypertensive roles and modulate blood pressure through directly acting on peripheral arterial resistance. **Subcellular Location:** Golgi apparatus. Membrane; Peripheral membrane

Important Note: This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.

	protein. Cytoplasm. Secreted. Endoplasmic reticulum. Nucleus envelope. Note=Golgi retention is mediated by its N-terminal region. Nesfatin-1: Secreted. **Tissue Specificity:** Predominantly expressed in spleen, testis and normal stomach. **Similarity:** Belongs to the nucleobindin family. Contains 2 EF-hand domains. **Database links:** **Entrez Gene:** 4925 Human **Entrez Gene:** 53322 Mouse **Entrez Gene:** 59295 Rat Omim: 608020 Human **SwissProt:** P80303 Human **SwissProt:** P81117 Mouse **SwissProt:** Q9JI85 Rat **Unigene:** 654599 Human **Unigene:** 9901 Mouse **Unigene:** 41602 Rat
