Background:	TIMM23 nomenclature and NM_006327.2 were associated with GeneID:10431 in build 37.1. Because of assembly problems in this region, it was later determined that GeneID:100287932 correctly represents the location of TIMM23. TIMM23 is now associated with GeneID:100287932 and NM_006327.2.
