[Primary Antibody]

Recombinant Rabbit Anti-PROCR Monoclonal Antibody

Catalog Number: SLA1073M

FOR RESEARCH USE ONLY

[DATASHEET]

Host:	Rat
Isotype:	IgG1, Kappa
Clonality:	Monoclonal
Clone No.:	9E11
Target:	PROCR
Purification:	affinity purified by Protein A
Concentration:	1mg/ml
Storage:	0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. Shipped at 4℃. Store at -20℃ for one year. Avoid repeated freeze/thaw cycles.
Applications:	Flow-Cyt (1:50-100) Not yet tested in other applications. Optimal working dilutions must be determined by the end user.
Reactivity:	Human
Predicted MW.:	25 kDa
Subcellular Location:	Cytoplasm
Background:	The protein encoded by this gene is a receptor for activated protein C, a serine protease activated by and involved in the blood coagulation pathway. The encoded protein is an N-glycosylated type I membrane protein that enhances the activation of protein C. Mutations in this gene have been associated with venous thromboembolism and myocardial infarction, as well as with late fetal loss during pregnancy. The encoded protein may also play a role in malarial infection and has been associated with cancer. [provided by RefSeq, Jul 2013]

Important Note: This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
